Mr Towle,

I appreciate your email back. I didn't read it as a brush-off. I was doing some Internet research, and your name came up. That's why/how I contacted you. I appreciate you taking time to answer.

Our township commissioners are involved. I was just reaching out on my own to gather knowledge.

Thank you for your time. No need to forward. I'll continue through the township.

Thanks so much!

Ms Roisin Swartz

My involvement with the Tank Car Corp location ended some years ago and was limited to directing environmental cleanup at the location. I initiated an environmental cleanup and then a colleague of mine completed an environmental cleanup. At first we ordered the Company to conduct work. At the end, the EPA was conducting the work.

I will forward your email to my colleague that completed the Site cleanup activity - if you wish, he can forward to the Township.

I am a mom in the Oreland neighborhood, and I am concerned with Cheltenham Transportations plans to use our neighborhood streets to bring their buses to and from your location every day. We are a small community. They have a lot of buses. The two together is not favorable to many of us in the community.
